Sean	Revision History	Lists	Formatted lists so they are consistent
Chris	Revision History	These Inspections are not on Revision History	Add Inspections from this report to the Revision History
John	Revision History	Location should be after title page but before table of contents	move the revision history to the first page after the title
John	Table of Contents	1. Page numbers missing 2. table of contents is self-	1. add pages numbers 2. remove table of contents

# Software Requirements Specification

## Inspection Report

		referencing 3. revision history shouldn't be included 4. software interfaces was removed in text but not table of contents	3. remove revision history 4. remove software interfaces and renumber elements
Chris	1.1	Recipe for Success database is not the formal name of our project	Change the "Recipe for Success" to read "Google recipe database integration"
John	1.1	Indentation is not consistent with style of document	Remove indentation
Chris	1.3	Google Mission Statement page is actually About Google page	Change "Google Mission Statement" to "About Google"
Chris	2.1	"Recipe for Success" is not the project name, refer to it as Google recipe database	Change "Recipe for Success" to "Google recipe database"
John	3.3	1. Performance requirements were vague and unmeasurable 2. Up time requirement unrealistic (99.99% = 8 sec down time each day)	1. Reword requirements to remove comparison against 'average' Google values and specify precise limits on loading times 2. Reduce to 90%

6. Revisions: All suggested changes were made.

7. Revision Date: 2012-10-01
